

IT IS IMPORTANT TO DOWNLOAD THIS INFORMATION OR HAVE IT ON HAND WHEN YOU ARRIVE.

It is a unique lodging concept with a cozy design  
At Tiny Houses, we want our clients to have an unforgettable travel experience and at the same time ecological, since during your visit you will use different eco-techniques used in each of our cabins.

Enjoy disconnecting for a weekend in the Sierra Gorda!

## INFORMATION YOU HAVE TO KNOW

### ECOTECHNIQUES EMPLOYED

Sillar construction

Rainwater harvesting on roofs, so we take great care of it, since it is the only water we depend on

We are not connected to the drainage network. We use **dry toilets**, this allows us save a huge amount of water, in addition to creating fertilizer for the garden. Help not pollute rivers

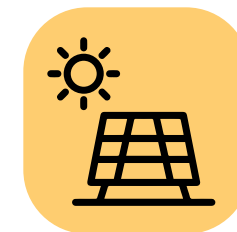

We try to use products that are **biodegradable**

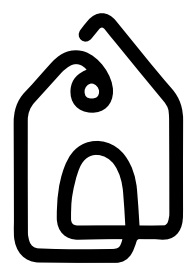

To heat the water in our cabins we use **solar heaters**

Reuse gray water

We use **solar panels** for our electrical supply and consumption

# TRAVEL TIPS AND RECOMMENDATIONS

Don't forget to take a picture on our wall

We recommend you bring clothes lightweight and walking shoes

Bring your bathing suit in case you want to go swimming in some river or pool in the Sierra

Bring your sunscreen, most of the time in Jalpan the climate is hot. Don't forget to check the weather before any trip

Bring your thermos to fill it up, is a sustainable way of travel

If you come with a pet, we lend them food and water dish

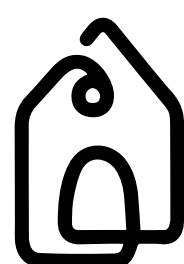

Jalpan is in the heart of the Sierra for what drive carefully in the curves

**Do not forget to mention us on our social networks**

# HOW TO GET

If you use an app, I recommend Google maps not waze because it sends you by a dirt road by the dam shore which is much longer. The right path should send them over “Piedras Anchas”

They must take the Circuit Capulines that takes you passing through the community of Piedras Anchas 2 km further on, passing the La Capilla de Acatitlan del Rio stop, you will see the BUGAMBILIAS on the road... There it is!
